18 June 1953

25X1A
MEMORANDUM FOR: [redacted]
Assistant Director
Psychological Strategy Board

SUBJECT : Malenkov Test Case

1. You asked for our opinion as to whether the Morgan memorandum of 27 March 1953 should be made available to other government units. The memorandum contains a section entitled "CIA" (See pages 3 and 4) which reveals names and activities of CIA personnel. This portion should not be disseminated to other government units.

2. We can find no other objections to the dissemination of the report.

3. You may be interested in passing on to 25X1A [redacted] an opinion by a person to whom the report was shown that "...the report strikes at the heart of a problem which has given us cause for concern for many years." The problem is the decentralization of Government documentation and records not only on Soviet leaders but on the matter of International Communism in general.
